Required Equipment :

RWC2010B/C(Digital Radio Tester), RWC2100F (Analog Radio Tester)

Revision History

Version	Date	Description
V 1.031	09/NOV/2026	[Caution] 1. Compatibility FW V1.060 or higher for the RWC2010C FW V1.072 or higher for the RWC2100F [Function improvement] 1. The installation folder has been changed to RWC/RwcSLTT. 2. The storage location of the app environment file, SLinking.ini has been changed from the installation folder to: UserDoc/RWC/RwcSLTT/ini/ [Debug] 1. Fixed an issue where the Contents List selection was not independent for each DAB service and FM channel. 2. Added synchronization when parameters included in the SLTT are updated through commands in the SLTT script. 3. Fixed error message displayed when changing the equipment type without an active connection.
V 1.030	20/JUL/2026	[Caution] 1. Compatibility FW V1.060 or higher for the RWC2010C FW V1.072 or higher for the RWC2100F [Function improvement] 1. Added Repeat function for the Power Profile Test sequence. 2. Added Script function 3. Added automatic execution of the loaded script files for each RWC equipment at the start of the Service Linking Test. [Debug] 1. Fixed the application crash during AF Tree List updates.
V 1.0251	10MAR/202**6**	[Function improvement] 1. Added pathloss parameter [Debug] 1.
V 1.025	13/JUL/2025	[Function improvement] 1. Removed DAB-to-DAB linking option in the AF Tree [Debug] 1. Fixed the Power "OFF" operation issue for the RWC2010B/C in the Power Profile test.
V 1.024	13/FEB/2025	[Function improvement] [Debug] 1. Speed increases when connecting equipment.
V 1.023	13/NOV/2024	[Function improvement] [Debug] 1. Bug fixed missing station setup commands, such as Contents/ SID.
V 1.022	18/APR/2024	[Function improvement] 1. Added changeable parameters; CEI, SH, ILS, LA of AF

		[Debug] 4. Increased application speed upon initial equipment connection
V 1.02	6/MAR/2023	[Function improvement] 1. Added a button for Maximizing AF tree 2. Added a button to synchronize AF parameters between the application program and RWC2010B/C or RWC2100F
V 1.01	23/NOV/2022	[Function improvement] 1. Compatible with RWC2010C
V 1.00	2/FEB/2022	[Debug] 1. Fixed the culture problem comma(,) and dot(.);
V 0.91	9/JUL/2021	[Function improvement] 1. Shows/hides all AF tree viewers 2. Shows audio delay time 3. Added a function loading the default values 4. Added a function adding descript 5. Checking Required minimum version RWC2010B(V1.640), RWC2100F(V1.022) [Debug] 3. Fixed the freezing problem during sending commands
V 0.90	30/JUN/2021	[Function improvement] 1. DAB ensemble with maximum 3 services 2. DRM multiplex with maximum 3 services 3. Editable AF information using checkboxes 4. Added AF parameter tree viewer
V 0.20	15/MAY/2021	First Release for service linking test using RWC2010B(Digital Radio Tester) and RWC2100F(Analog Radio Tester) Functions 1. DAB ensemble with single service 2. DRM multiplex with single service 3. Not editable AF information 4. Power profile editor 5. Workspace functions
